

Credit Recovery General Policy Statement

Credit Recovery at Gallatin High School is a program which gives students in grades 9-12 the opportunity to regain credit in a required course they have previously failed. These credits will be recovered by showing mastery of state curriculum standards in the Plato digital curriculum. Eligible students will be allowed to work in a supervised before or after school setting. Upon successful completion of the Plato coursework the student will receive a standard credit, with a grade no higher than a "C", recorded on their transcript. For more detailed information see your guidance counselor or the Gallatin High School website.
